Analytics engineer specializing in dimensional data modeling and BI solutions. Leveraging 3+ years of stakeholder management and requirements synthesis experience to design data warehouses that deliver actionable insights. Proficient in SQL, BigQuery, dbt, and Tableau with hands-on experience building end-to-end data pipelines.

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications:** [Analytics Engineering Bootcamp](#), [Tableau Desktop](#), [MySQL Data Analysis](#), [MySQL Database Administration](#), [Bloomberg Market Concepts](#)
- **Technologies:** SQL, BigQuery, dbt, Tableau, Dimensional Modeling, Data Warehousing, Git, Google Cloud
- **Skills:** Stakeholder Management, Requirements Synthesis, Data Quality, Clear Communication
- **Interests:** Calisthenics, Music Journalism, Beauty & Wellness (LVMH Certification — In Progress)

PROJECTS

Northwind Traders: End-to-End Dimensional Data Warehouse   **Sep. 2025 – Nov. 2025**
Tools: BigQuery, dbt, Tableau, SQL, Kimball Methodology
- Built a dimensional data warehouse on Google Cloud Platform using Kimball star schema, implementing a 4-layer data pipeline (Data Lake → Staging → Warehouse → Reporting) with dbt transformations.
- Designed and developed 3 self-initiated Tableau dashboards delivering real-time insights on sales performance, inventory health, and customer behavior.
- Optimized query performance through table partitioning and a denormalized reporting layer; consolidated 4 business processes into 3 dashboards by identifying shared dimensions, reducing code duplication.
- Completed multiple SQL analysis projects on retail datasets to build foundational query skills prior to warehouse implementation.

WORK EXPERIENCE

VIDA Select   **Jun. 2021 – Jan. 2025**
Client Strategy Consultant and Senior Editor   *Remote*
- Transformed unstructured stakeholder requirements from 2-3 hour consultations into structured documentation, synthesizing data from surveys, notes, and competitive research into data-driven deliverables.
- Collaborated cross-functionally with matchmakers to iterate on client profiles based on feedback loops, reducing revision cycles by 30% through pattern recognition and requirements refinement.
- Developed content strategy solutions for high-expectation clients, successfully reframing sensitive requirements and filling information gaps to create compelling, market-ready profiles with minimal revision cycles.
- Led onboarding and mentorship for junior editors through 1-1 sessions and created Writer's Gazette, a knowledge-sharing resource that standardized best practices and reduced ramp-up time for new team members.

VOLUNTEERING

The Spill Magazine   **May. 2022 – Aug. 2023**
Contributor and Author   *Remote*
- Published music reviews and artist interviews, developing editorial voice and meeting tight publication deadlines.

EDUCATION

Queen's University   **Expected Dec, 2025**
Bachelor of Arts, English Language and Literature   *Kingston, ON*
- **GPA: 3.7** Dean's List
